2024 YTD December 31, 2024 Financial Data Analysis

Net Income
\$316,190

Net income for 2024 currently stands at \$316,190. Please remember this is an unaudited figure and could fluctuate based on auditor recommendations.

Below you will find a six-year comparison, which illustrates recovery from the difficult COVID-19 and software conversion years.

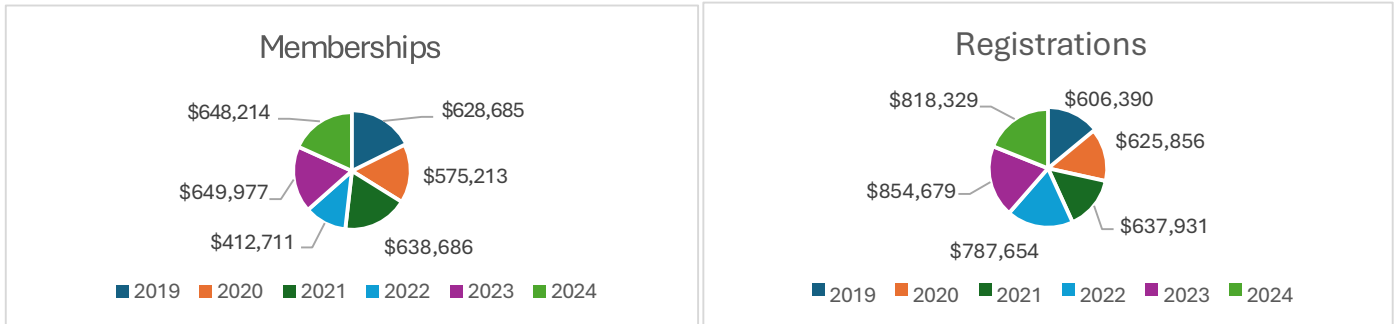

Having successful years, where ADGA shows a profit, allows ADGA to create a financial reserve that provides stability and helps mitigate risk during periods of difficult economic situations. This helps ADGA to continue to provide member services without interruption.

Here is a comparison of membership and registration revenue since 2019.

Total membership revenue decreased by less than 1% compared to the same period in 2023, while total registration revenue decreased by 4% for the same period. YTD registration counts decreased by 7,586 animals, dropping most significantly in Nigerian Dwarfs and Nubians.

Total income versus total expenses for the year are more favorable than in previous years. When expenses outpace income, reserves can be depleted quickly. The last couple of years shows an encouraging trend towards better financial stability for the Association.
